

The Deaf Awareness Campaign is being co-ordinated by UK Council on Deafness, the national umbrella organisation for charities and professional bodies working in the field of deafness. The diversity of our members covers the full spectrum of deafness. Some are specialist in their work, others cover a defined geographical area. Between them they can meet your specific needs.

There are many events taking place during Deaf Awareness Week, **2nd – 8th May 2011** for details of events in your area, contact your local deaf organisation.

LOOK AT ME

Being deaf is about experiencing
the world visually
